SUBJECT: Authorization for the plant genetic material collection in the Section of Biology of the University of Patras and the Centre of Genetic Resources, the Netherlands, Wageningen

Having regard to:

1. Article 16 of the L.1558/85 "Government and Governmental Instruments" (A 137)
2. Article 10 of the P.D 80/22-3-90 "on the protection of the plant genetic material of the Country" (O.J 40 vol.A) concerning the relevant authorization for the genetic plant material collection in our country issued by the Directorate of Physical Planning and Environment Protection of the Ministry of Agriculture
3. The P.D 402/1988 "Organization of the Ministry of Agriculture" (A187) as it was amended later.
4. The provisions of the P.D. 67/81 "Concerning the protection of the self-sown flora and wild fauna as well as the determination for the coordination and control procedure of the research"
5. The C.M.D no. 331794/12-3-99 "trading of the wild fauna species and self sown flora" (O.J 281/B 31-3-99)
6. The Decision n.348881/2007 of the Deputy Minister of the Rural Development and Food "Authorizing the Gen. Secretaries, Gen. Directors, Directors etc. to sign "with the Deputy Minister Order" (O.J. 2433/28-12-2007)
7. The activities concerning the following:
 - a. The Document with ref.No. 233937/5-5-2009 of the Section of Biology of the University of Patras on the authorization in conducting

- an exploratory mission for the collection of the plant species: *Allium ampeloprasum*, *Allium commutatum* & *Allium beougaui* in our country.
- b. The document with ref. No 371/26-5-2009 of the Genetic Material Bank of the Agricultural Research Center in Northern Greece, concerning the recommendation of the authorization on this matter
 - c. The Decision with ref. No. 101590/1606/19-5-2009 of the Directorate for the Aesthetic Forests, Parks and Game concerning the authorization in this sector
 - d. The Information Note from 29/05/2009 of the Directorate of Physical Planning and Environment Protection concerning the authorization in this sector

We authorize

The accomplishment of an exploratory mission from July to August of 2009 from the Section of Biology of the University of Patras in cooperation with the Centre of Genetic Resources, The Netherlands, Wageningen, with the TEI of Crete. This specific mission is carried out under the supervision of the Greek Genetic Bank of Agricultural Research Center in Macedonia-Thrace of the NAGREF in areas of our country, Central Greece, Peloponnese, Thessalia, as well as the islands of Lesbos, Karpathos, Andros, Crete and Kythira for the collection of plant genetic material of the species: *Allium Ampeloprasum*, *Allium commutatum* & *Allium beougaui*

The collection shall be carried out under the following conditions:

1. The interested Body is obliged to send a Letter of Acceptance of its terms
2. The collection shall take place under the responsibility and supervision of the Genetic Material Bank (GMB) of the Agricultural Research Center in Macedonia-Thrace of NAGREF. The expenses for the participation of the representative of the Greek Genetic Bank shall be covered by the Section of Biology of the University of Patras or the associated Centre of Genetic Resources, The Netherlands, Wageningen.
3. The half of the quantity of the collected genetic material should be delivered in the Greek Genetic Bank of NAGREF in order to be preserved.
4. The Heads from the Section of Biology of the University of Patras Prof. Tzanoudakis Dimitrios and from the Centre of Genetic Resources, The Netherlands, Wageningen Dr. Chris Kik shall send (update) the results of the characterization and development of the genetic material to the Greek Genetic Bank of NAGREF in order to be registered in its own relevant database
5. The promotion of the further scientific cooperation between the head of the collection body and the associated Centre of Genetic Resources, The Netherlands, Wageningen, with the Greek Genetic Bank of NAGREF on matters of scientific interest concerning the "plant genetic resources for food and agriculture"
6. The equitable and joint benefit distribution resulted eventually from the successful development of this genetic material shall be governed by the

"requirements of Bonn for the acceptance of the genetic resources and the equitable and joint benefits' distribution resulted from their use" as they laid down in the provisions of the Biodiversity Inter Convention-- CBD

- 7. The collection of the genetic material from the National Parks included in the broader geographical research area as well as from the preserved Monuments of the nature in the aforementioned area, is not allowed
- 8. The interested body and the associates with it should take under consideration and implement the Decision with ref. No. 101590/1506/19-5-2009 on the authorization of collection of the Directorate of Aesthetic Forests, Parks and Game on the authorization of collection

By Order of the Deputy Minister

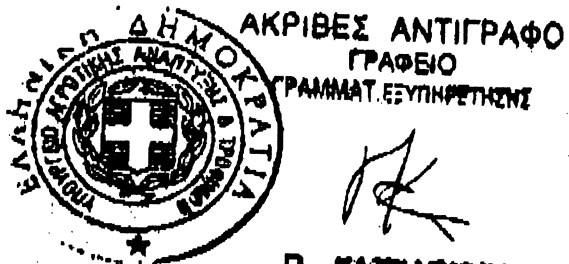

THE SECRETARY GENERAL

K. SKIADAS
